Backup Wallet

Please keep the following safety points in mind:

Once the private key and secret recovery phrases are leaked, the assets can be controlled by others

Anyone can transfer the assets as long as they hold the private key and secret recovery phrase

The wallet password is only used for the encryption and decryption of the private key. The password is only stored on the mobile phone. Please make a backup of the password.

Do not take screenshots of private keys and secret recovery phrases to avoid being intercepted by malicious software

Please copy it correctly and keep it in a safe place. Don't use network transmission or storage.

7

Jot down the
secret recovery
phrases for wallet
recovery purpose

Tap on
"Completed
backup, verify it
now"

* NEVER DISCLOSE
your secret recovery
phrase to anyone!

Backup memorizing words

These secret recovery phrases are for recovering your wallet, write down it correctly on paper and keep it in a safe place
